It is learned that this showing is due to the large increase in the traffic of the company other than that resulting from the transportation of cereals. and it is believed that the improvement in this respect will continue. The prospects of the common stock being placed upon a 4 per cent. basis are also being seriously considered by

those familiar with the company's affairs. The heaviest trading was in Northern Pacific common and in Sugar Refining. The lastnamed, however, did not retain much of its early improvement in price. Outside of these two the trading was well distributed and in the usually active list the net fluctuations favored both accounts. The reaction in the fron and steel stocks was most pronounced in Tennessee Coal and Iron, the speculation in which was influenced by the comparatively unfavorable showing of earnings for September, which is printed further on in this column. Pressed Steel Car, upon which the first quarterly dividend will shortly be paid, scored a net advance of 2 points. The revival of interest in American Linseed Oil became more pronounced, owing presumably to the further advance of three cents a gallon in the price of its products, making a total advance of 15 cents a gallon within a week. It is stated that the company is now doing a business of over \$1.750,000 a month, or about \$21,000,000 a year. It has paid six consecutive quarterly dividends of 1% per cent, on its preferred stock and will declare another quarterly dividend about the middle of next month, payable thirty days thereafter. Other specialties that showed exceptional strength were Glucose Sugar Refining, Mexican Central and Wheeling and Lake Erie second preferred.

Consider No. 2 mixed. in elevator. 26c. No. 3 mixed. in e rumors concerning it. James J. Hill, President

Etten will then be promoted to be general manager, and he will have jurisdiction over several departments that now report directly to the President. Since his election to the President of the Presidency Mr. Callaway has done the work previously performed by three men, viz.: President Depew, Third Vice-President H. Walter Webb, and General Manager John M. Toucey. In the event of General Superintendent Van Etten being promoted, his present place will be filled by the advancement of a division superintendent.

E. H. Harriman's Western Trip. E. H. Harriman, chairman of the Union Pacific board of directors and head of the syndicate which controls the Chicago and Alton and which reorganized the Kansas City Southern Railroad, has gone West and railroad men say that his trip is in connection with the affairs of the last-named railroad. Although it is author-itatively stated that there have been no actual the last-named rainroad. Although it is author-itatively stated that there have been no actual important sales of the Kansas City Southern securities, there are evidences that there has been a readjustment of ownership, which mate-rially alters the relative influence of members of the syndicate.
